The diagram shows a rectangular grid with horizontal and vertical lines. There are four columns of squares. The first column has three shaded squares, the second has two, the third has two, and the fourth has three. The shading pattern is staggered between columns. Labels '1070' point to the top-left and bottom-left corners. '16' is placed above each of the four columns. 'C1' is at the top right corner. 'C2' points to one of the shaded squares in the fourth column. 'C3' is at the bottom center, below the second and third columns. Two brackets labeled '18' are positioned below the grid, one under the first column and one under the second and third columns.
